

ISA Working Group Event: 17 May 2018

ISA WG Update

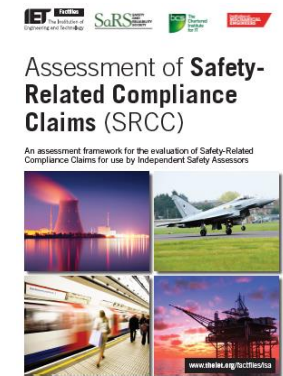

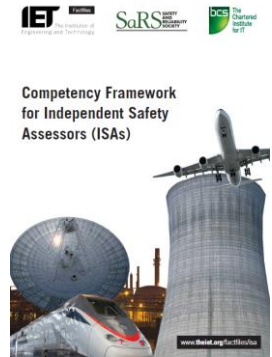

ISA WG Terms Of Reference - Purpose

- promote the ISA role as a means of providing independent safety assurance of products to the supplier, purchaser and user;
- promote the ISA role of a safety professional in standards;
- support professional development by defining minimum standards, identifying training that meets minimum standards and supporting resources; and
- support professional ISAs by developing guidance and providing information that affects their role.
