THE SAFETY-CRITICAL SYSTEMS CLUB

28th Safety-Critical Systems Symposium

11-13th February 2020, Principal Hotel, York, UK

The Safety-Critical Systems Symposium in 2020 comprises three days of presented papers with an industrial focus, including keynote talks, submitted talks, updates from the SCSC working groups and a poster session. There is also a symposium banquet with an after-dinner speaker.

The Symposium is for all of those working in the field of system and functional safety, including engineers, managers, consultants, regulators and assessors. It offers wide-ranging coverage of current safety topics, and a blend of academic research and industrial experience.

There will be six keynote speakers during the three days and an after-dinner speaker at the banquet.

The symposium features are:

- Six keynote presentations;
- Submitted papers organised into themes;
- A poster session;
- Updates from the SCSC Working Groups;
- Delegate participation throughout including 'Question Time';
- Tools and services exhibition (Tuesday and Wednesday);
- Proceedings volume including papers for each presentation and abstracts for posters;
- A reception with drinks tasting on the Tuesday evening;
- A banquet with after-dinner speaker on Wednesday evening;
- A chance to see York attractions on Wednesday afternoon.

The symposium is a regular event and fosters a community spirit in the field: it is a great place to network, learn about the latest practice in safety and develop new business contacts.

To book your place at the conference please see:
